Question	code	Remark

Response body contains single object in postman
 	
{"cartAdded":"yes"
 	
}
	pm.test("status code",()=>{
	pm.response.to.have.statusCode(200)
	pm.response.json().to.have.contains("cartAdded")
	}
	)
		Need to know about response
		Json from interviewer

Headers usage	queryParam we can include in header	queryParam we can't include in header. Need to know more about header in postman
Torch Testcase addTo Cart Testcase	https://chat.openai.com/share/5558783b-dc79-4e44-8a72-dcb360961cab	Need to get Elaborated requirement from Interview
Verification and validation		Need to research more
Post method can do updation? Post vs put	Yes we can do updation in post method
